EXPERIENCE

IT instructor Trainee
While working as a IT instructor Trainee i made learning
Resources that were used to create a full stack course.

EDUCATION

I taught myself how to program with HTMl, CSS, JavaScript,

C# and Python and due to being self taught i have encountered a

Massive amount of bugs which has made my skills with debugging rather
good

PROJECTS

Web portfolio.

Program managing program(

This program manages the other programs

I have made and run them.

)

A Social media Bot that interacts with said

Platform and the users on that platform.

Japanese teaching program.

SKILLS

Communication skills

Analytical skills

Team working skills

Intermediate Japanese
